MESSAGE FROM THE BISHOP

In May, we celebrate 'Mother's Day'. Madonna, the mother of Jesus, and my own mother come to mind. They were great mothers, for as Solomon says, '...a woman who fears the Lord is to be praised. Give her the reward she has earned, and let her works bring her praise at the city gate' (Proverbs 31:31).

We live in a world where we tend to forget the value of motherhood and are satisfied by giving our mothers a few flowers and gifts, especially on 'Mother's Day'. Your mother needs your presence more than anything else. She cherishes the memories of those days when you started your journey of life and the many milestones that you crossed under her care. You can thank God for her unconditional and tender love, while admiring her as the special person who shared your life and personality to become what you are.

It is also a time for every woman to appreciate the special call God gives for 'motherhood'. It is through a woman that the child first perceives the world and learns to face the harsh realities of life. The responsibilities of a mother are enormous. With radiance on her face, she imparts moral values and permits her child to watch her every action and listen to every word she utters.

Our mother's love is one of the greatest gifts we received. Should not every day be 'Mothers Day'?
